# Healthy Youth Survey 2004 Survey Results

Statewide Results, Grade 10

Number of students surveyed: 8557 Number of valid responses: 8059

### **Introduction and Overview**

The impact of adolescent health risk behaviors remains a primary concern of citizens throughout the country. Many health problems experienced by adolescents are caused by a very few preventable behaviors. Patterns of alcohol, tobacco, and other drug (ATOD) use and related risk behaviors are often formed during adolescence. These patterns play an important role in health throughout adulthood.

This report presents results from the fall 2004 Healthy Youth Survey in Washington State. This survey was sponsored by the Office of Superintendent of Public Instruction; the Department of Health; the Department of Social and Health Services; the Department of Community, Trade and Economic Development; and the Family Policy Council, in cooperation with schools throughout the state of Washington.

For each item, local results appear in the first two columns and statewide results appear in the second two columns. The number of valid responses ("n") appears in parentheses for each item. Survey items covering the same topics are grouped together (the item numbering is specific to this report and does not necessarily reflect the item order on the actual survey). The bulleted points and graphs included at the beginning of this report highlight selected findings. Additional information may be found in the *Interpretive Guide* that accompanied this report.

#### **Key to the Notes**

The survey was administered in 3 versions. Forms A and B were administered to students in Grades 8, 10, and 12. These two forms contained a core set of common items (see "List of Core Items" on the last page of this report) and additional items unique to each form. Form C was administered to students in Grade 6. This form consisted primarily of items drawn from Forms A and B but also included some unique items. Several items on each form were optional at the discretion of the school; schools that did not administer the optional items tore off the last page of the survey booklet. The following notes are used throughout this report to document the differences between the items on different versions and indicate the optional items:

A = wording on Form A B = wording on Form B

C =wording on Form C

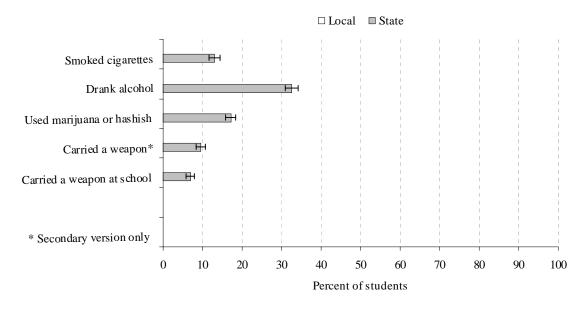

† = optional item

## **Highlights of the Local Results**

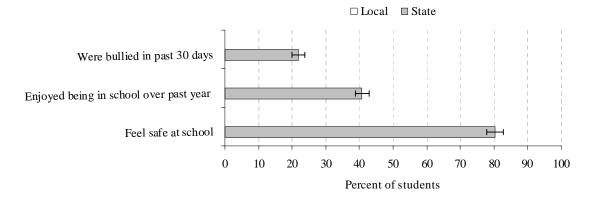

Students statewide reported the following behaviors and attitudes:

		State	wide
•	Smoking cigarettes in the past 30 days (see item 24).	13.0%	$(\pm 1.4\%)$
•	Drinking alcohol in the past 30 days (see item 30).	32.6	$(\pm 1.6)$
•	Using marijuana or hashish in the past 30 days (see item 31).	17.1	$(\pm 1.4)$
•	Carrying a weapon in the past 30 days (see item 114).	9.6	$(\pm 1.2)$
•	Carrying a weapon at school in the past 30 days (see item 115, 116).	6.9	$(\pm 1.0)$
•	Being bullied in the past 30 days (see item 135).	21.8	$(\pm 2.0)$
	Enjoyed being in school over the past year (see item 200).	40.8	$(\pm 2.0)$
	Feeling safe at school (see item 211).	80.3	$(\pm 2.5)$

### Substance Use and Weapon Carrying in the Past 30 Days

### **Bullying and School Climate**

## **Selected Results by Gender**

Selected items are presented by gender to highlight any differences between females and males. The p-values reported after each item can be used to examine whether differences in the local data between females and males are statistically significant. To ensure student anonymity, local results are suppressed for each item on this page if any cell (e.g., females who reported smoking) represented fewer than 15 students.

During the past 30 days, on how many days did you smoke cigarettes? (See item 24.)  None 1 or more	State (n = 7,5) Female 86.3% 13.7	
During the past 30 days, on how many days did you drink a glass, can or bottle of alcohol (beer, wine, wine coolers, hard liquor)?  (See item 30.)  None 1 or more	State (n = 7,5) Female 66.3% 33.7	
Think back over the last 2 weeks. How many times have you had five or more drinks in a row? (A drink is a glass of wine, a bottle of beer, a shot glass of liquor, or a mixed drink.) (See item 61.)  None Once or more	Stat (n = 7,7) Female 81.6% 18.4	
During the past 12 months, did you ever feel so sad or hopeless almost every day for two weeks or more in a row that you stopped doing some usual activities? (See item 125.)  No Yes	State (n = 7,6) Female 59,9% 40.1	
In the last 30 days, how often have you been bullied? (See item 135.)  I have not been bullied Once or more	State (n = 7,7) Female 77.7% 22.3	
I feel safe at my school. (See item 211.)  No Yes	State (n = 7,5) Female 17.6% 82.4	

## **General Information**

_	**	Sta	te	
1.	How old are you?	(n = 8)	(n = 8,034)	
	a. 12 or younger	0.0%	$(\pm 0.0\%)$	
	b. 13	0.0	$(\pm 0.0)$	
	c. 14	1.6	$(\pm 0.4)$	
	d. 15	71.1	$(\pm 2.0)$	
	e. 16	25.5	$(\pm 1.4)$	
	f. 17	1.2	$(\pm 0.6)$	
	g. 18	0.3	$(\pm 0.2)$	
	h. 19 or older	0.1	$(\pm 0.0)$	

[Item 2 appears only on the elementary version of the survey.]

_		State
3.	Are you:	(n = 8,035)
	a. Female	53.1% (± 1.2%)
	b. Male	$46.9 \qquad (\pm 1.2)$

4.	How do you describe yourself? (Select one or more responses.)	Sta $(n=7)$	
	a. Asian or Asian American	5.2%	$(\pm 1.8\%)$
	b. American Indian or Alaskan Native	2.1	$(\pm 0.4)$
	c. Black or African-American	3.6	$(\pm 1.8)$
	d. Hispanic or Latino/Latina	9.2	$(\pm 4.9)$
	e. Native Hawaiian or other Pacific Islander	1.7	$(\pm 0.4)$
	f. White or Caucasian	68.9	$(\pm 5.5)$
	g. Other	4.9	$(\pm 0.6)$
	More than one race/ethnicity marked	4.5	$(\pm 0.6)$

5.	What language is usually spoken at home?	State $(n = 7,739)$
	a. English	$86.9\%  (\pm 3.9\%)$
	b. Spanish	6.6 $(\pm 3.9)$
	c. Russian	1.3 $(\pm 0.4)$
	d. Ukrainian	$0.9 \qquad (\pm \ 0.4)$
	e. Vietnamese	$0.7 \qquad (\pm \ 0.4)$
	f. Other	$3.6 (\pm 1.2)$

[Item 6 appears only on the elementary version of the survey.]

7.	What is the highest degree or diploma your father earned?	State $(n = 7,666)$	
	a. None	10.1%	$(\pm 2.4\%)$
	b. High school diploma or GED	23.1	$(\pm 2.0)$
	c. Two-year college	11.7	$(\pm 1.2)$
	d. Four-year college or more	29.4	$(\pm 5.5)$
	e. Don't know	25.8	$(\pm 2.4)$

8.	What is the highest degree or diploma your mother earned?	Sta	
0.	a. None	( <i>n</i> = 7 8.6%	(± 2.2%)
	b. High school diploma or GED	25.4	$(\pm 1.8)$
	c. Two-year college	15.3	$(\pm 1.0)$ $(\pm 1.2)$
	d. Four-year college or more	28.5	$(\pm 4.1)$
	e. Don't know	22.2	$(\pm 1.4)$
9.	How far in school do you think you will get? (Mark only	C4.	4-
	one.)	Sta $(n=3)$	
	a. Won't graduate from high school	n = 3 1.5%	$(\pm 0.4\%)$
	b. Will graduate from high school, but won't go any further	6.3	$(\pm 0.470)$ $(\pm 1.2)$
	c. Will go to a community college, technical, or other 2-year	21.3	$(\pm 1.2)$ $(\pm 2.0)$
	school after high school	21.3	(= 2.0)
	d. Will attend a 4-year college	10.2	$(\pm 1.2)$
	e. Will graduate from a 4-year college	37.6	$(\pm 2.2)$
	f. Will earn an advanced graduate degree	23.2	$(\pm 1.8)$
10.	Not counting chores around your home, how many hours	Sta	te
	per week are you currently working for pay?	(n=3)	
	a. None, not currently working	68.6%	$(\pm 2.2\%)$
	b. 4 hours or less a week	13.6	$(\pm 1.4)$
	c. $5 - 10$ hours a week	9.4	$(\pm 1.0)$
	d. 11 – 20 hours a week	5.3	$(\pm 0.8)$
	e. 21 – 30 hours a week	1.8	$(\pm 0.4)$
	f. 31 – 40 hours a week	0.5	$(\pm 0.2)$
	g. More than 40 hours a week	0.9	$(\pm 0.4)$
		Sta	te
11.	How honest were you in filling out this survey?	(n=7)	,035)
	a. I was very honest	84.8%	$(\pm 1.4\%)$
	b. I was honest pretty much of the time	13.1	$(\pm 1.2)$
	c. I was honest some of the time	2.0	$(\pm 0.4)$
	d. I was honest once in a while	Surveys pulled	
	e. I was not honest at all	Surveys pulled	

# Alcohol, Tobacco, and Other Drug Use

Alcohol, tobacco, and other drug use has been a major concern in this country for many years. The consequences of ATOD use are well known. In the short term, ATOD use interferes with positive physical, emotional, and social development. In the long term, ATOD use is associated with delinquency and criminal activity, unintended injuries, and a variety of health complications including shorter life expectancy. The economic costs of ATOD use are enormous (in Washington State an estimated \$1.81 billion in 1990 and \$2.54 billion in 1996). Tobacco use is the world's leading cause of preventable death, disease, and disability. This section provides information about lifetime ATOD use (which in part reflects experimental use), use in the past 30 days (i.e., current use), and other tobacco-, alcohol-, and drug-related issues.

#### Lifetime Use

12.	Have you ever smoked a cigarette, even just a puff?		State	
	(Computed from item 219.)	(n = 3,	833)	
	a. No	64.9%	$(\pm 2.9\%)$	
	b. Yes	35.1	$(\pm 2.9)$	

13.	Have you ever smoked a whole cigarette? (Computed from item 40 or 41.)  a. No b. Yes	Sta (n = 7, 73.7% 26.3	
14.	Have you ever used chewing tobacco, snuff, or dip? (Computed from item 48.) a. No b. Yes	Sta (n = 3, 88.4% 11.6	
15.	Have you ever had more than a sip or two of beer, wine, or hard liquor (for example: vodka, whiskey, or gin)? (Computed from item 220 or 221.)  a. No b. Yes	Sta (n = 7, 39.6% 60.4	
16.	Have you ever smoked marijuana? (Computed from item 217 or 218.) a. No b. Yes	Sta (n = 7, 70.5% 29.5	
17.	Have you ever used methamphetamines (meth, crystal meth, ice, crank)? Do not include other types of amphetamines. (Computed from item 225.)  a. No b. Yes	Sta (n = 3, 94.9% 5.1	
18.	Have you ever, even once in your life, used steroids (muscle builders) without a doctor's prescription?  a. No b. Yes	Sta (n = 3, 97.3% 2.7	
19.	Have you ever, even once in your life, used cocaine or crack (coke, rock, snow)?  a. No b. Yes	Sta (n = 3, 94.0% 6.0	
20.	Have you ever, even once in your life, used a needle to inject any illegal drugs?  a. No b. Yes  21 and 22 appear only on the elementary version of the survey.]	Sta (n = 3, 98.2% 1.8	
litems	s 21 and 22 appear only on the elementary version of the survey.		

# 30-Day Use (Use in the Past 30 Days)

23.	During the past 30 days, on the days you smoked, how many cigarettes did you smoke per day?	Sta $(n=3)$	
	a. I did not smoke during the past 30 days	85.0%	(±1.6%)
	b. Less than 1 per day	4.7	$(\pm 0.8)$
	c. 1 per day	3.0	$(\pm 0.6)$
	d. 2 – 5 per day	4.6	$(\pm 0.8)$
	e. 6 – 10 per day	1.7	$(\pm 0.6)$
	f. 11 – 20 per day	0.5	$(\pm 0.2)$
	g. More than 20 cigarettes per day	0.5	$(\pm 0.2)$

## During the past 30 days, on how many days did you:

24.   Smoke cigarettes?			Sto	to

### **Other Health Concerns**

This section provides results regarding other health concerns including nutrition and fitness, health conditions and health care, safety, behaviors related to intentional injury, and depression. Proper nutrition and exercise are critical components of a healthy life, as is access to preventive health care. Safety-related behaviors, such as wearing a seat belt when in a moving vehicle, can profoundly influence the outcome of an accident. Injury is the leading cause of death for adolescents aged 10 to 19, and violence contributes to injury-related deaths. People who are depressed experience a range of symptoms, and depression is associated with suicidal behavior.

#### **Nutrition and Fitness**

64. Overweight: "Overweight" includes students who are in the top 5% for body mass index by age and gender based on growth charts developed by the Centers for Disease Control and Prevention (2000). "At risk for overweight" includes students who are in the top 15% but not the top 5%. (Computed from numeric responses to "How tall are you without your shoes on?" and "How much do you weigh without your shoes on?")

without your snoes on?	(n = 3,	,644)

# **Quality of Life**

Health-related quality of life is an individual's or group's perceived physical and mental health over time. At the individual level it involves a person's health and health-related conditions; at the community level it involves conditions that influence people's health. This section contains the results of the items related to individual quality of life.

### **Risk and Protective Factors**

Decades of research have shown that certain risk factors are associated with increased likelihood of health risk behaviors including ATOD use, violence, and delinquent behaviors. Similarly, research has shown that protective factors exert a positive influence against the negative influence of risk factors. The survey included substantial coverage of risk and protective factors based on the work of Drs. Hawkins and Catalano and associates at the University of Washington. The premise of the risk reduction and protective factor enhancement approach to prevention is that preventing a problem before it occurs requires addressing the factors that predict the problem. Ideally, this strategy entails discovering the causes of the problem behavior and influencing those causes. Many of the survey items were used to assess students' status on risk and protective factors in the community, school, and peer-individual domains. Composite scales were computed for use in local program planning.

The table on the following page provides the complete list of risk and protective factors and indicates the years the Healthy Youth Survey has included each factor.

## Risk and Protective Factor Framework and Reporting Schedule

#### **Risk and Protective Factor Scale Results**

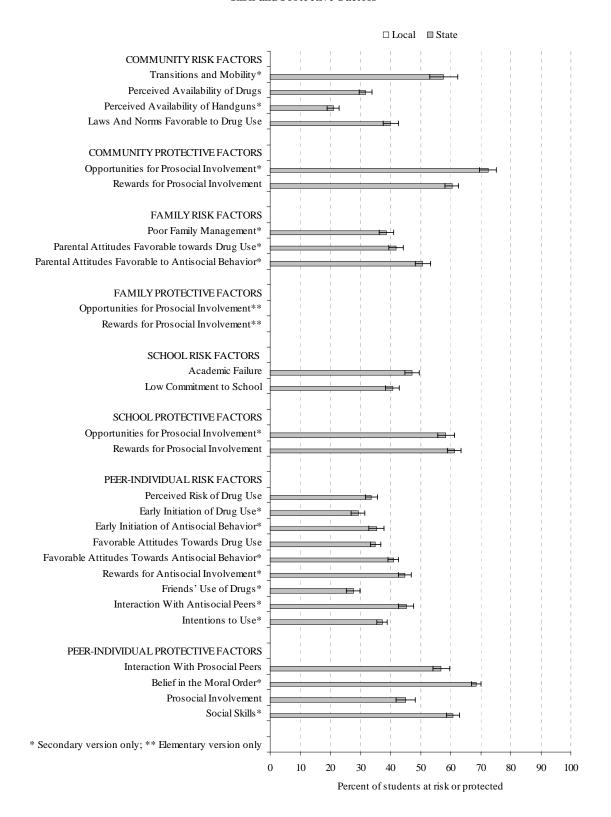

For each *risk* factor scale, the percentage of students who are at risk (i.e., who agreed with statements that predict ATOD use or other problem behaviors) is reported; higher percentages indicate that *more* students are likely to engage in problem behaviors. For each *protective* factor scale, the percentage of students who are resilient (i.e., who agreed with statements that predict the ability to resist ATOD use or other problem behaviors) is reported; higher percentages indicate that *fewer* students are likely to engage in problem behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

Community Risk Factors	State
Transitions and Mobility (Items 150–153)	$(n = 4,070)$ $57.7\% (\pm 4.7\%)$ $(n = 4,044)$
Perceived Availability of Drugs (Items 154–157)	31.8% (± 2.2%)
Perceived Availability of Handguns (Items 158)	(n = 4,044) $21.0%$ (± 2.0%) $(n = 4,045)$
Laws And Norms Favorable to Drug Use (Items 159–164)	40.1% (± 2.5%)
Community Protective Factors	State $(n = 3,981)$
Opportunities for Prosocial Involvement (Items 165–170)	72.4% (± 2.7%) (n = 4.044)
Rewards for Prosocial Involvement (Items 171–173)	(n - 4,044) $60.4%$ (± 2.2%)
Family Risk Factors	State $(n = 2,628)$
Poor Family Management (Items 174–181)	$38.7\%  (\pm 2.4\%)$ $(n = 2,603)$
Parental Attitudes Favorable towards Drug Use (Items 182–184)	$41.8\%  (\pm 2.4\%)$
Parental Attitudes Favorable to Antisocial Behavior (Items 185–187)	(n = 2,589) $50.8%$ (± 2.5%)
Family Protective Factors (Items 188–194)	[Only on the elementary version of the survey.]
School Risk Factors	State $(n = 3,970)$
Academic Failure (Items 195–196)	$47.2\%  (\pm 2.4\%)$
Low Commitment to School (Items 197–203)	(n = 4,051) $40.7%$ (± 2.4%)
School Protective Factors	State (n = 4.026)
Opportunities for Prosocial Involvement (Items 204–208)	(n = 4,026) $58.5%$ (± 2.7%) $(n = 4,023)$
Rewards for Prosocial Involvement (Items 209–212)	$61.2\%  (\pm 2.4\%)$

Peer-Individual Risk Factors	State
	(n = 3,857)
Perceived Risk of Drug Use (Items 213–216)	$33.7\% (\pm 2.0\%)$
